Goals

1. The main aim of this community work internship is to empower individuals and provide a vision to those who lack support and awareness.
2. It strives to engage people and raise awareness about better living conditions and solutions to social challenges.
3. Various activities conducted during this internship aim to overcome certain social challenges faced by the local community and those in need.
4. The goal is to build a positive impact in the minds of people, improving their quality of life and providing hope for a better future for themselves and society.
5. This internship seeks to engage developed individuals to support those in need and contribute to the welfare of society.
6. By reaching out to people and raising awareness about a better, sustainable environment and social life, it promotes a positive and healthy community.
7. Reach out to local areas and slums to educate residents on vital topics related to environmental & various government schemes. Giving them knowledge, resources and assisting them.

Achievements

1. During my field visit, I increased the children's interest in education and instilled a sense of hope that education can lead to a better future. I aimed to help them understand the value of a good life and how to become well-educated individuals.
2. During my plantation drive, I raised awareness about the value of plants and nature among some people. This task helped to create a more aware society about the importance of plants and maintaining ecological balance.
3. Through various engagements, I emphasized the importance of building community support and raising awareness, both of which are crucial for driving social change.
4. Through awareness campaigns for government schemes, I ensured that the benefits reached the intended recipients, particularly the poor and needy.
5. During the fundraising campaign, I collected a small amount of 2000 rupees. Though it is very little, I conducted the campaign with transparency and without pressuring anyone. I was able to gain some support for the poor children.

6. By preparing a comprehensive report on SDG goals, I helped Umeed NGO understand how to achieve these goals.

Plan and Adherence

1. My mentor assigned me tasks with specific deadlines, requirements, responsibilities, and expected outcomes. The mentor also addressed any queries I had about the tasks.
2. After receiving the tasks, I created a plan and outline detailing how to perform each task and achieve the social objectives behind them.
3. I completed my tasks with sincerity and on time, doing my best to meet all expectations.
4. After completing the tasks, I prepared a final report for each one. The reports explained the importance of the tasks, the strategies used to complete them, and the outcomes and observations.
5. I also attached various photos to the reports.

Future Goals

1. I plan to continue social awareness and engagement activities with my friend to continuously improve the lives of the needy and poor.
2. I aim to always consider how I can improve society and make any product or service inclusive for the poor in my future jobs.
3. I also plan to further expand the reach of institutions that work for community improvement.
4. As a computer science student and engineer, I will use the social skills I have learned in my future tasks. In any sector I work in, I will strive to create services and products that also improve the social lives of those in need.
5. Additionally, I will continue to develop a transparent fundraising campaign to support organizations in empowering citizens and spreading awareness.

Weekly Log

Week	Date	Hours	Activity/Progress
Week 1	28 May - 2 June	16 hours (2+2+2+2+2+3+3)	**GOVERNMENT SCHEME AWARENESS CAMPAIGN**

			I was assigned the task of reaching out to underprivileged individuals such as rickshaw pullers, domestic maids, and wage workers to raise awareness about various Government schemes. My responsibilities included : 1. Conducting a basic survey to assess whether these individuals were benefiting from existing Government schemes. 2. I informed them about other schemes that could be advantageous for them. 3. I aimed to explain the importance of these schemes. 4. I provided assistance in completing the necessary forms for their enrollment & also explained to them how & where to apply. 5. I provided them with my personal contact number so that they can get any assistance in future from my side.
Week 2	3 June - 9 June	20 hours (3+2+3+2+2+4+4)	**TREE PLANTATION DRIVE** My responsibilities included : 1. To make a presentation on Climate change and present it to a group of 5-8 people (Friends/Relatives/Neighbours) & also invite them for a plantation drive. 2. To organize a plantation drive, Plant at least 10 trees in Forest/Open ground/Road divider/Park post photos on social media with the plant's introduction and its ecological values. 3. If no open ground is available, plant 10 medicinal plants in flower pots and place it on the terrace/balcony. **FIELD VISIT** **Event: Knowledge For All (Teaching Project)** My responsibilities included : 1. Educating young children in the area, primarily from poor families living in slums. 2. Making learning enjoyable for them. 3. Providing guidance and a vision for a better future.

Week 3	10 June - 16 June	16 hours (2+2+2+2+2+3+3)	**Marketing & HR Week** My responsibilities included : 1. To make a social media strategy for Umeed and help them in connecting at least 30 followers on following social media platforms: Facebook, Instagram & Twitter. 2. To invite applicants for Internship (Target: School & College students) by creating a poster, requesting students to send their CV on email/Whatsapp & circulating it on social media, linkedin, college/school groups.
Week 4	17 June - 23 June	16 hours (2+2+2+2+2+3+3)	**Fundraising** My responsibilities included : 1. To make a fundraising strategy for supporting Project Knowledge For All (Teaching campaign for underprivileged childrens in adopted slums of UMEED). 2. To ask friends, relatives or neighbors to support. 3. Taking help of Social Media including Whatsapp by posting posters for donation.
Week 5	24 June - 29 June	16 hours (2+2+2+2+2+3+3)	**Ideas on SDGs Implementation** My responsibilities included : To make a descriptive report on how an NGO can work on the ground in achieving at least 10 SDG goals.

Total Working Hours: 16+20+16+16+16=84 Hours

Instructions
1. Organization Details
    a. Briefly explain the working of the organization - what do they do? How do they sustain themselves (in terms of funding)? What is the organizational structure? How many employees? What are the existing technologies currently in place? Etc.
2. Goals
    a. In detail describe what the NGO/group wanted you to achieve during the semester
3. Achievements
    a. Describe the goals which you were able to achieve and any other achievements related to the project
4. Plan and Adherence
    a. How did you plan to achieve the goal? This should be developed based on discussion with the organization and how was your adherence to the plan all through the activity.
5. Weekly Log
    a. For each week, how many hours were spent, and what specific things were done in that week. If you had the log on a page include the pictures of your log in your report itself.
6. Certificate Link
    a. Add a drive link of the certificate obtained from the organization. Be sure to make the link available to everyone at IIITD.
7. Team Members
    a. List out names of other students who also did the SG/CW with you with the same organization. This list isn't necessary in case a project was conducted at IIITD itself.
8. Future Goals
    a. How you plan to extend your current activity into the future and build upon it.
    b. Based on your experience working with the organization and what you have learned at IIIT Delhi, briefly explain how IT can play a role in improving upon the existing activities. If your work involves some technology intervention, please explain how it will help the organization and how it will be sustained after you finish your activity.
